Lynn Dailey Hege, LE, CME, CLT. Lynn is a highly trained certified laser technician and medical aesthetician and passionately dedicated to helping her clients restore youth and health to their skin. She adopts and perfects the most advanced technology that is available from our sources, and develops new, "in-house" protocols and treatments to achieve optimal results that far exceed industry standards.

Lynn's clients rave about her amazing ability to correct their skin while putting them at ease all in the privacy of her own suite located in the Best Impressions Plastic Surgery building.

With an extensive array of modalities and state-of-the-art lasers to assist in your transformation, Lynn customizes treatment plans precisely for your needs. The beautiful result is young and healthy skin for decades to come.

In the field of aesthetics and cosmetic laser, an expert must utilize many different types of modalities and lasers to achieve mastery of the craft. However, results do not just lie in the technology itself, but in how it is used and who is using it. Lynn is one of the the best in the field.

When not with patients, Lynn can often be found collaborating with Dr. Best on patient care and treatment options.

*“When experience and knowledge count... make the right choice”*

**Call Lynn today to schedule a complimentary, no obligations consultation to discuss what treatment options are best for you.**
